Acceptable verification methods include:

- Review of tax returns, W-2s, or other IRS filings (income-based verification)
- Review of bank, brokerage, or other asset statements (net worth-based verification)

- Written confirmation from a FINRA-registered broker-dealer, **SEC-registered** investment adviser, licensed attorney, or CPA

Note: State-registered investment advisers are **not** acceptable verifiers under the Rule 506(c)(2)(ii)(C) safe harbor. Only SEC-registered investment advisers satisfy the safe-harbor requirement. Verification is valid for 90 days from the date of verification.

V. Source of Funds Documentation

All investors must provide documentation evidencing the **source of funds** being invested. Acceptable documentation includes:

- Bank statements showing available funds
- Brokerage account statements

VI. Politically Exposed Persons (PEP) Screening

All prospective investors will be screened against PEP databases and sanctions lists, including:

- European Union sanctions lists
- PEP databases (current and former government officials, family members, and close associates)

Enhanced due diligence will be conducted for any investor identified as a PEP, including additional documentation of source of wealth and senior management approval before acceptance.

VII. Ongoing Monitoring

The Manager will conduct ongoing monitoring of investor activity and will investigate any unusual or suspicious transactions. Red flags include:

- Unusual or unexplained large transactions
- Transactions inconsistent with the investor's stated financial profile
- Requests for unusual payment methods or third-party transfers
- Reluctance to provide required documentation
- Adverse media or sanctions list matches

VIII. Suspicious Activity Reporting

If suspicious activity is identified, the AML Compliance Officer will file a Suspicious Activity Report (SAR) with the Financial Crimes Enforcement Network (FinCEN) within 30 calendar days. No supervised person may notify the investor that a SAR has been filed.

IX. Record Retention

All KYC documentation, CIP records, and AML-related records will be maintained for a minimum of **5 years** from the date the investor's account is closed or the investor's relationship with the Fund terminates.

X. Training

All supervised persons will receive AML training upon hire and annually thereafter. Training covers recognition of suspicious activity, reporting obligations, and updates to AML regulations.

XI. Third-Party Providers

The Manager currently performs KYC procedures manually. As the Fund scales, the Manager intends to engage a third-party KYC/AML provider for automated identity verification, sanctions screening, and ongoing monitoring. Any third-party provider will be subject to due diligence and ongoing oversight by the AML Compliance Officer.
