Key Personnel

STT Capital Advisors, LLC is led by a complementary team combining quantitative strategy development with institutional-grade operations. Together, they designed, built, and backtested the entire PNTHR Signal System and operational infrastructure.

Scott McBrien

Managing Member, Chief Investment Officer & Chief Compliance Officer

Scott McBrien is the Founder and Managing Member of STT Capital Advisors, LLC (the Investment Manager) and Co-Founder of PNTHR Funds, LLC (the General Partner), serving as Chief Investment Officer and Chief Compliance Officer for PNTHR FUNDS, Carnivore Quant Fund, LP. An accomplished investment professional with decades of experience in equities, futures, and quantitative investment strategies, Scott began his career in investment banking, holding Series 7, 63, and 3 SEC/FINRA licenses. He was offered a position as Head of Trading in Chicago, where he traded a range of futures contracts and developed a proprietary strategy that doubled the firm's account in profits within nine months.

In 2025, Scott and his Co-Founder, Cindy Eagar, launched PNTHR FUNDS, Carnivore Quant Fund, LP, a Regulation D, Rule 506(c), Section 3(c)(1) long/short equity hedge fund open to Accredited Investors who are also Qualified Clients. Together they engineered the proprietary PNTHR Signal System from the ground up, including the signal detection algorithm, multi-dimensional Kill scoring framework, pyramid entry system, PNTHR Proprietary Stop Loss System (PPSLS), and all risk management protocols. This technology now serves as the strategic engine behind the fund's performance.

Scott authored *The Sigma Investor*™ (2024), which debuted as an Amazon #1 New Release. The book chronicles his contrarian investment philosophy and documents exceptional performance, including during the market downturn of 2022, providing insights into navigating volatile environments.

Scott's expertise has been recognized by major financial media outlets including **CNN**, **U.S. News & World Report**, **The Business Journals**, and **Business Insider**. Business Insider, with over 200 million global readers, featured his timely short positions in banking stocks (executed weeks before the March 2023 collapse of Silicon Valley Bank), highlighting how his system helped protect investors from significant losses.

Licenses Held	Series 7, Series 63, Series 3 (SEC/FINRA)

Career History	Stock & Futures Broker, Senior Technical Analyst, Head of Trading (Chicago), Futures Trader
Published Work	The Sigma Investor™: Amazon #1 New Release (2024)
Media & Press	CNN, U.S. News & World Report, The Business Journals, Business Insider, plus industry podcasts and publications
Notable Achievement	Designed a system that backtested to a 2.39 Sharpe ratio and 9.10x profit factor across 2,510 pyramid trades over 7+ years, encompassing both bull markets and major drawdowns (COVID crash, 2022 bear market)

Cindy Eagar

Chief Operating Officer & Chief Information Security Officer

Cindy Eagar is the Co-Founder of PNTHR Funds, LLC (the General Partner) and serves as Chief Operating Officer and Chief Information Security Officer of STT Capital Advisors, LLC (the Investment Manager) and of PNTHR FUNDS, Carnivore Quant Fund, LP, a U.S.-based hedge fund serving family offices, high-net-worth, and ultra-high-net-worth investors seeking disciplined, asymmetric growth strategies. Drawing on nearly two decades in executive leadership and business growth, Cindy brings a unique perspective to capital management rooted in risk awareness, strategic positioning, and operational excellence.

Before launching PNTHR FUNDS, Cindy played key executive roles in scaling venture-backed technology companies. Most notably, she helped SaaS leader **Keap** (formerly Infusionsoft) grow from $10M to $100M in revenue. She has also advised and built partnerships for numerous high-growth businesses, working closely with founders, operators, and investors to navigate complex growth stages.

At PNTHR FUNDS, Cindy leads technology development, systems engineering, and data infrastructure. She co-developed the PNTHR Signal System and built all operational infrastructure for the Fund, including the investor data room, compliance framework, AML/KYC procedures, and investor relations processes. She and Co-Founder Scott McBrien focus on protecting the downside while positioning capital for significant upside through a disciplined, research-driven approach.

Cindy's insights on investing, entrepreneurship, and business strategy have been featured in and quoted by **Business Insider**, **U.S. News & World Report**, **The Business Journals**, and additional industry publications and podcasts.

Operations Experience	Nearly 20 years in executive leadership, project management, and operations across technology and financial services
Key Prior Role	Executive at Keap (Infusionsoft): helped scale from $10M to $100M in revenue
Fund Operations	3 years building fund operations, compliance infrastructure, and investor relations for Carnivore Quant Fund
Media & Press	Business Insider, U.S. News & World Report, The Business Journals, plus industry podcasts and publications

Responsibilities	Fund operations, information security, technology development, investor onboarding, data room management, reporting
Notable Achievement	Built the complete operational and compliance framework for an emerging hedge fund, from partnership agreements to data room to investor communications, establishing institutional-grade infrastructure prior to accepting outside capital
